

Holidays & Sick Days

HOLIDAYS

Au pairs may be scheduled to work on holidays if needed and hosts should make a reasonable effort to give their au pair some preferred holidays if possible. Hosts and au pairs should discuss USA holidays as well as holidays from the au pair's home country/culture well in advance.

SICK DAYS

Au pairs are allowed sick days throughout the program year within reason in case of illness or other medical needs. These do not count towards vacation days and the stipend may not be reduced because of missed work days. Au pairs may also inform their host if they are still able to provide passive childcare and work on light duty while sick. If your au pair is chronically ill or is missing an unreasonable amount of work, please inform your Local Rep.
